EXECUTIVE PROFILE

Senior Solution Architect specialising in **enterprise integration, API ecosystems, and hybrid cloud platforms**, with a strong track record delivering large-scale transformation programs.

- Expert in **AWS, Azure, and Oracle Cloud**
- Specialised in **API-first, event-driven, and hybrid cloud architectures**
- Strong track record modernising legacy systems into scalable integration platforms
- Experienced in **AI-enabled automation and intelligent workflows**
- Proven in coaching and mentoring engineers to build high-performing, self-sufficient teams
- Strong ability to align architecture with business strategy, operational outcomes, and customer experience

CORE EXPERTISE

PROFESSIONAL EXPERIENCE

2024 – PRESENT

Solution Architect – Integration

Kāinga Ora

New Zealand's largest public housing provider

- Architected enterprise integration platform (**Azure Integration Services + Oracle Integration Cloud**) improving system interoperability across multiple core systems
- Defined **API orchestration and hybrid cloud architecture patterns** aligned to business capabilities
- Introduced **AI-driven automation and workflow orchestration**
- Established integration governance, standards, and security frameworks
- Contributed to integration architecture for **\$100M+ transformation programs**
- Partnered with business stakeholders to translate service delivery needs into scalable solutions
- Uplifted team capability to enable full in-house ownership of the integration platform

2021 – 2024

Solution Architect

Kāinga Ora

- Delivered critical platform upgrades (**Actifio, NEC Public housing management software**)
- **Led end-to-end solution architecture and migration** from Genesys Engage to Genesys Cloud (500+ agents)
- Designed **cross-cloud integrations (Azure, Oracle, Salesforce, ServiceNow, Genesys, NEC)**
- Delivered end-to-end integration architecture for Project Greys Avenue (Te Mātāwai), enabling a 24/7 housing service model
- Provided technical leadership and mentoring across delivery teams

2018 – 2021

Digital Solution Architect

Health Promotion Agency

New Zealand government agency delivering nationwide public health campaigns

- Delivered **AWS cloud migration and AI chatbot platforms (NLP/ML)**
- Enabled nationwide digital services improving mental health access and user engagement
- 🏆 Awarded Data Hackathon Aotearoa 2020

2014 – 2018

Senior Technical Project Manager → Technical Director

Ogilvy Vietnam

- Owned end-to-end solution architecture for enterprise e-commerce platforms and SAP integrations supporting Nestlé Global and Australia's flagship brands (Milo, Nescafé, KitKat)

EARLIER CAREER

IT Manager / Java Developer / System Administrator

Apollo English School & Prior

- Managed business applications and IT infrastructure for one of the biggest English language centers in Vietnam, ensuring high availability and performance across multiple campuses
- Built and maintained mobile Java applications/games, establishing strong software engineering fundamentals
- Administered systems, networks, and infrastructure, grounding architectural decisions in operational reality
